

COMMERCIAL HVAC-R & APPLIANCE

RIGHT TECHNICIANS AT THE RIGHT TIME

OUR SERVICES

Heating, Ventilation & Air Conditioning— We service all brands of roof top HVAC units, hoods, make-up air and exhaust units, and swamp coolers.

Refrigeration— We specialize in the diagnosis and repair of walk-in and reach-in coolers and freezers. We also repair ice machines, fountain machines, sandwich coolers, and ice cream machines.

Appliances— We repair all major commercial appliances including ovens, steamers, grills, fryers, coffee machines, and dishwashers.

Backflow Inspections— We are licensed to test backflow devices as required by law and we file the necessary paperwork to keep you in compliance.

Minor Plumbing and Electrical— We can provide minor plumbing and electrical repairs including emergency lights, switches, ballasts, commercial water heaters, pre-rinse hoses, faucets, flush valves, and toilets.

Preventative Maintenance— We offer a personalized preventative maintenance program to help you make informed decisions for your repair and maintenance budget. Because we become familiar with the history of your equipment (entered into a database), we can prevent needless breakdowns and quickly diagnose problems when they do happen. During the monthly, quarterly, or semi-annual visit and upon your manager's approval, our technician is available for any additional repairs that may be discovered during the PM, without added travel and trip charges.

THE RT DIFFERENCE

Founded in 1994, RT Mechanical is a locally-owned business with technicians serving the Denver Metro area (including Colorado Springs and Boulder). The majority of our skilled technicians are NATE certified and licensed. We specialize in HVAC, refrigeration, and appliance repair for commercial customers, as well as light electrical and plumbing repair.

RT Mechanical responds to all service calls in a timely fashion. Health and safety issues are given priority on our job board. When you call RT Mechanical, we will look for the root problem of equipment failure rather than just replacing parts, saving you repeated calls and costly replacements. All invoices are totaled upon completion of the job for the approval of your manager. This policy helps you manage your maintenance budget and keeps communication open between our businesses.

OUR PRICES

We offer competitive rates and customized estimates for your jobs. Our standard rates are as follows:

Hourly Fee: \$78.00

Travel Fee (Denver Metro): ½ hour

Truck Charge: \$25.00 per job

After Hours Emergency Calls: Port to port time and a half

Holiday Calls: Port to port double time
